NEWS & VIEWS

EDITION 9 – New Year 2005

HAPPY NEW YEAR

President Ben and his Management team wish our Learners, Mentors and Supporters their very best wishes for a happy and peaceful New Year.

CHANGE TO MANAGEMENT TEAM

Unfortunately Tom Allen has resigned from the Management team due to other commitments – we are sorry to lose Tom and we thank him for his efforts on behalf of BSOL.

Mary Assenbruck has stepped into the breach as Vice President and we welcome Mary back to the committee.

BASIC CURRICULUM AMENDED

Module 4 of our basic curriculum has been amended to include a section on System Security. Mentors are requested to review the amendment on our website and download a copy for their reference if necessary.

This amendment formalizes that which most Mentors are already teaching Learners.

COMPUTER TIP

A confident manner is important: Computers can sense this!

ANOTHER COMPUTER TIP

Our policy is to always blame the computer.

NORTH HUB SPLIT

The North Hub which covered a vast area has been split in to three, more manageable Hubs effective 1/1/2005.

Details of the new Hubs are –

North Hub

Hub Coordinator – Phil Debono

North East Hub

Hub Coordinator – Marie Halliday

North Central Hub

Hub Coordinator – Phil Hutton

We welcome our new Hub Coordinators Marie Halliday and Phil Hutton and assure them of our support in their new role.

Special thanks to Phil Debono for his management of the North Hub (and his continued management of the reduced Hub). Like most Hub Coordinators, Phil is also a very active Mentor and we know he will always go that extra mile for his learners. And his efforts on behalf of BSOL are especially appreciated and important as Phil doesn't even live in the Brisbane area but is a Pine Rivers resident.

To a worm, digging in the hard ground is more relaxing than going fishing.

FOR LEARNERS – IN PRAISE OF HOMEWORK

Teachers open the door. You enter by yourself.

Chinese Proverb

That which we persist in doing becomes easier, not that the task itself has become easier, but that our ability to perform it has improved.
